Why take over an existing craft business instead of starting one from scratch?

Because it's often much easier. The business already has employees who know their jobs, established ways of working, and the necessary equipment.

✨ WHAT MAKES STARTING FROM SCRATCH MORE DIFFICULT?

Finding and training new staff can be very challenging, and buying new equipment is expensive and time-consuming.

✨ **WHAT SHOULD YOU CHECK BEFORE TAKING OVER A BUSINESS?**

Look at how much the business earned in the past and talk to the existing employees. A good working relationship is essential.

✦ WHAT'S THE BIGGEST ADVANTAGE OF TAKING OVER AN EXISTING BUSINESS?

You can start earning money from day one,
with everything ready to operate.

Many new businesses don't survive their first
two years, while taking over an existing one
gives you a much stronger starting position.
